To fix panel:
Offer the rail onto the fishplate and slide along until it butts up to the post.

To insert fishplate:
Slide vertically midway into slot. Twist through 90° locating the fishplate horizontally.

HD post/panel assembly

To Install a corner:
Post set at 45% angle. Slot and twist fishplate (see above fishplate)

Make up panels are to be cut and drilled on site from standard panels. Any cut or damaged surfaces need to be repaired accordingly.

Tools required - Conventional socket to suit M8 & M10 shear nuts
