## Appendix to Certificate No: 1454c Heras Perimeter Protection Ltd

Issue: 02

### Security Gates

| Product Name | Type  | Height (m) | Minimum Width (m) | Maximum Width (m) | Compatible Locking Systems |              | Security Rating | LPCB ref. No. |
|--------------|---|------------|-------------------|-------------------|----------------------------|--------------|-----------------|---------------|
|              |   |            |                   |                   | Active Leaf                | Passive Leaf |                 |               |
| Zenith SR3   | Single leaf outward opening gate <sup>1,2</sup> | 2.2        | 1.32              | 1.32              | 1                          | N/A          | 3               | 1454c/01      |
|              | Double leaf outward opening gate <sup>1</sup>   | 3.0        | 2.2               | 6.2               | 1                          | 2            |                 |               |

### Compatible Locking Devices

| Compatible Locking Device | Manufacturer | Model                | Type        | Compatible Operating Devices  |                        | Compatible Cylinder  |
|---------------------------|--------------|----------------------|-------------|-------------------------------|------------------------|----------------------|
|                           |              |                      |             | External face                 | Internal face          |                      |
| 1                         | HERAS        | Lockable slide latch | Sliding bar | Key via LSCH3 and sliding bar | Key and sliding bar    | Abus E90 europrofile |
| 2                         | HERAS        | Drop bolt            | Drop bolt   | N/A                           | Drop bolt <sup>3</sup> | N/A                  |

#### Notes:

1. The gates are compatible for installation within the fence-line of the fencing systems covered by the scope listed on LPCB certificate 1454b (Issue 04).
2. The single leaf gates must only be installed within a 3 m high Zenith SR3 fence panel manufactured by Heras Perimeter Protection Ltd.
3. The drop bolt does not need to be engaged or padlocked in order to achieve the security rating noted.
4. The gates shall be mounted onto flat topography and are available in configurations to suit either surface mounting onto hard surfaces or embedding within concrete foundations placed in the ground. Furthermore, the local ground onto/into which the gate is installed shall offer compatible strength.
5. The gap between the bottom of the gate leaf and the ground must not exceed 50 mm.

This certificate and appendix is maintained and held in force through regular surveillance activities
